

MUSTARD & SEED

Wedding guide

FROM ENQUIRY TO FINAL PLANNING

H a l l o

My name is Mandri, I am the florist and creative designer of Mustard and Seed.

Firstly I want to congratulate you on your future wedding. I am truly honoured that you are lingering around and taking the time to learn more about the way we approach a wedding.

Every wedding is different therefore I strive to bring every bridal couple's personalities to life through the flowers. I am deeply infatuated with flowers. I see every floral arrangement as a piece of art that is coming to life.

I always ask; what you want to portray with the flowers on your wedding day? What type of atmosphere do you want to create? This is what we use to bring your vision to life.

Candles are a massive yes! This brings in colour, warmth, texture and shapes. We love styling tables with them and we also rent the candles for you! The flowers should be an outflowing of your other decor.

Our aim is to create a sensational and extraordinary experience for you and the guests with every flower stem.

NEED TO KNOW:

PRICING:

Once size doesn't fit all when it comes to wedding flowers. Here are a few things to keep in mind that may affect your floral expenses:

1. Flower preferences and quantity.
2. The type of vases we need to use.
3. Flower availability and seasonality (if the flowers are imported or locally sourced).
4. With many flowers comes many hands. We have to add labour to the cost as we use professional freelance florists with the same design aesthetic.
5. The distance we travel to your venue and back.

MINIMUM SPENT: R20 000

We will always strive to achieve your vision within your budget. We have to maintain a certain standard of how our weddings and events should look like. We pride ourselves in our work and we give our everything stem by stem. The minimum spent truly is necessary to create a beautiful overall effect with the flowers we use.
